We will be using the computers at RPI's Center for Computational Innovations to access SCOREC software and to do our parallel assignments. Therefore, you will need an account and to have you account associated with the class project. (A user has one account, but can be associated with multiple projects.)

If you already have a CCI account then:
- Give me a sheet of paper with your name, student ID number and the CCI user name

If you do not have a CCI account then:
- Fill out the user information form - https://secure.cci.rpi.edu/wiki/images/b/b1/CCI_User_Information_20140612.pdf
- Sign the user responsibility form https://secure.cci.rpi.edu/wiki/images/b/b3/CCI_User_Responsibility_Agreement_20140612.pdf

Please return the forms in class on Thursday, January 17. If you will not be in class that day, fill out, scan and email to me (shephard@rpi.edu)
